BIRMC meetings

As per the Charter, BIRMC should meet on quarterly basis. During 2019, the DFCC Bank convened six BIRMC meetings where two additional meetings were to review Internal Capital Adequacy Assessment Process (ICAAP) and risk policies. The attendance of members is listed on page 104 of the Annual Report. The Committee continued to review policy frameworks, risk management strategies, risk capital position, key risk indicators and top and emerging risks at these meetings and was satisfied that the risk exposures of the Bank and the Group were being appropriately managed. During the financial year, the following key initiatives were achieved by the Committee.

- A. Reviewed and approved the Internal Capital Adequacy Assessment Process (ICAAP) of DFCC Bank, which was a regulatory requirement with effect from January 2014. BIRMC will continue monitoring and proposing future capital requirements as per the Bank's growth targets for the next few years.
- B. In relation to the management of compliance risk, compliance risk indicators with different risk scales were reviewed and specific areas of focus were recognised based on the possible impact and the probability of occurrence.
- C. Risk controls and monitoring tools were further improved with revisions to the overall risk limits system of the Bank from time to time as required. New advisory limits were put in place as trigger limits as required.
- D. All existing risk policies and practices were reviewed by the Committee in line with the Bank specific requirements, industry dynamics, and regulatory specifications and approved the necessary amendments to further strengthen the risk management processes in the Bank.
- E. The Committee reviewed the technical validation results for the credit rating models and approved the revisions of credit rating models for Corporate, SME, and PFS exposures. These revisions focused on recognising the borrower risk profile more effectively thereby reducing the subjectivity in assigning the scores for the model parameters. These changes have been implemented in the Bank during the year facilitating better credit pricing and risk management.

- F. The annual review of effectiveness and adequacy of the Management Committees was conducted by the BIRMC during the first quarter of 2019. The review results were shared with the respective committees for necessary improvements.
- G. Reviewed and approved all the new products and redesign of any existing products of the Bank while taking both business and risk management perspective.
- H. Reviewed and implemented the CBSL recommendations based on the examination report requirements in relation to the integrated risk management function of the Bank.
- I. Having duly recognised the trends in increasing threats on systems and information security, the committee paid increased attention by reviewing the adequacy of the security in information systems and closely monitoring the action plans and implementation of new projects for further improving information systems security in the Bank.
